✓ CRAFTEDVAN

Craftedvan makes and sells
unique and functional
magnetic bookmarks that
bring back the love for
paper, books, and stationery

Once upon a time, in a land far far away, at the headquarters of craftedvan (based in Vancouver, Canada), these magnetic bookmarks were made especially for you. Although small in size, these bookmarks have a large and magnetic personality. You can always count on them to stay hanging where you last left it, no matter how shaky things can get. Whether joining you on an adventure between the pages of your favourite book, clipping to your planner to cheer your week on, or just being your new sidekicks, count on them to put a smile on your face!

.....

We are Erica and Diana, a crafty duo whose friendship from highschool blossomed from a little hobby into this growing business we are proud to call Craftedvan. When we started, we hoped to create something new and unique that could put a smile onto another person's face. We created a product that along with this, also brought back a love for paper books and reading.

It has since evolved into a vast collection of characters, each with their own story to tell. By listening to our audience's interests while adding our own personality, we are able to develop items that are adored and relatable. We put extra care into every cut, fold, sleeve and stick when producing items by hand in order to ensure quality and love is put into each bookmark.

In this book, you will find a collection of our top selling products and designs since 2013 (we've since expanded to include cards and pins too!). We invite you to read through our catalogue, encourage you to mark your favourites, and hope that our story can connect with yours!

A hand is holding a birthday card that features a cartoon boba tea cup with a smiling face, a cupcake, and a bubble tea drink. The card has a green background and says "Have the BEST BDAY TODAY!". In the background, there are other cards in a rack, including one with a green star and another with a purple and yellow design. The scene is brightly lit, suggesting a window or a well-lit room.

GREETING CARDS

If you love cheesy and cheeky, you're sure to love each greeting card craftedvan curates! Our pun-lines will get you that "dad-joke reaction" during any special occasion.

"They are the perfect little gift for someone when you don't know what else to get! (Everyone reads, and there's something for everyone in the bookmarks!) They're also a FANTASTIC add-on, to increase the average sale and owners want that sales increase! They're also freakin' adorable! Easy on the eyes, and appealing to all."

- Bird on a Wire Shop

"Craftedvan has been a great addition to our bookstore. Their large variety insures that there is something cute for everyone. Vroman's customer favorite is the Avocado Jumbo Bookmark!"

- Vroman's Bookstore

"Your bookmarks are amazing! They're so creative and everything from cute to nerdy and so they really are what your customers want! They're also great quality. You guys also care a lot about what your customers think and you work really closely with us. It would be so cool to have your bookmarks in more stores!"
